

Task 03:- Perform a Basic Vulnerability Scan on your PC.

Screenshot showing the fetching of json request body:

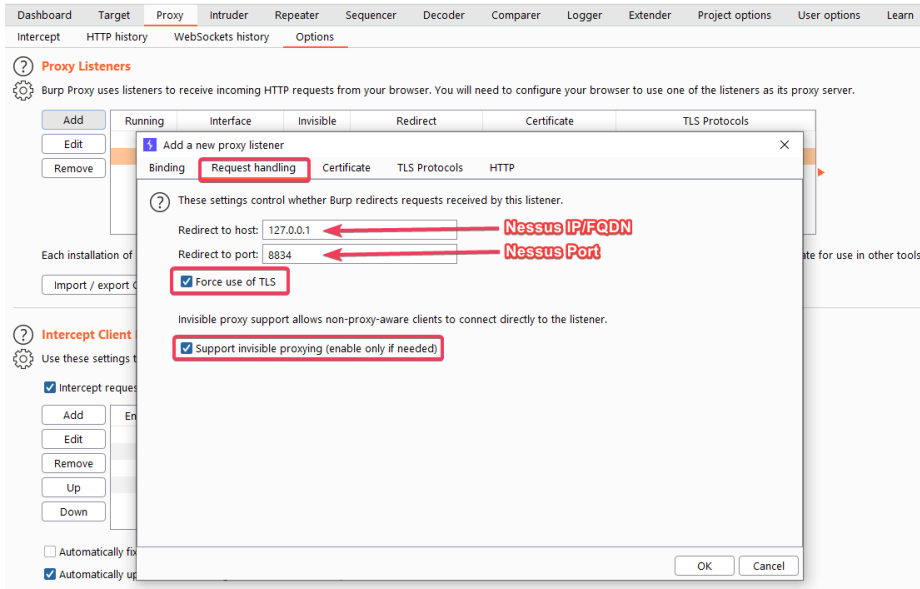

Setup the Burp proxy to listen on Port 8080 and redirect the traffic to Nessus port 8834. Follow the red colored boxes to setup the burp proxy.

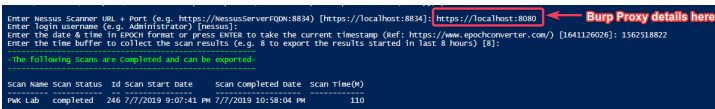

Screenshot for Burp Proxy Port Binding

.Screenshot for redirecting the powershell traffic to Nessus

Running the script in proxy mode:
Give the input as "https://127.0.0.1:8080" in the "Nessus Scanner URL + Port" input. Screenshot provided below for your reference.

Sample Screenshots
Powershell Console I/O:

```
PS C:\Users> .\NessusPkg_Report_Exporter_Tool.ps1

Enter Nessus Scanner URL + Port (e.g. https://NessusServerFQDN:8834) [https://localhost:8834]:
Enter login username (e.g. Administrator) (Nessus):
Enter Password: *****
Enter the date & time in Epoch format or press ENTER to take the current timestamp (Ref: https://www.epochconverter.com/) [1641182231]: 15/11/3499
Enter the time buffer to collect the scan results (e.g. 8 to export the results started in last 8 hours) [8]: 300

The following scans are completed and can be exported:

-----
Scan Name      Scan Status  Id Scan Start Date      Scan Completed Date      Scan Time(0)
-----
Cisco Catalyst Offline Audit [test]  completed    308 10/15/2019 6:23:19 PM  10/15/2019 6:24:06 PM    7
Brocade SAN Switch (No Compliance)  completed    582 10/15/2019 3:41:43 PM  10/15/2019 3:50:21 PM    9
NetApp Data ONTAP (OS+Compliance)   completed    378 10/14/2019 12:22:28 PM  10/14/2019 12:30:02 PM    8
Cisco Nexus Switch (OS+Compliance)  Scan completed 373 10/14/2019 12:15:27 PM  10/14/2019 12:22:16 PM    7

-----
There are no scans that are pending/have issues:

-----
This script can download 4 different report formats for each scan-
Supported formats: nessus OR db OR csv OR HTML or all

Note: HTML report will generate 3 different HTML reports (Vulnerabilities by HOST, Plugin, Compliance)

Enter selection [all]:
selected any password for Nessus_DB format [my_db_password]: new_P8ssw0rd

Working on Scan 1 : Cisco Catalyst Offline Audit [test]
Report 1:
Scan 1: Step 1 - Requesting for file to download
Scan 1: Step 2 - Waiting for Nessus scan to be ready Ready
